PLURIGLANDULAR THERAPY

AN EPOCHAL STEP IN ADVANCE

Bayard-Holmes in *Lancet-Clinic*: "Much evidence has accumulated showing that disease of the ductless glands is usually plural rather than isolated and single. . . . Pluriglandular disease is rather the rule than the exception. . . . The use of gland extracts in treatment of aplasias of the pluriglandular system has become an established therapeutic measure of miraculous potency."

Dardel in *The Practitioner*: "The practitioner should grasp the idea that morbid states may be consequent upon pluriglandular insufficiency, and this will encourage him to substitute multiglandular for monoglandular organotherapy on the same lines and for the same reason that we employ polyvalent sera."

HORMOTONE

is a combination of those internal secretions, which co-operate in maintaining the dynamic force of the organism—that is, the sthenic condition. *Hormotone* contains the hormones of thyroid, pituitary, ovary and testis—each in physiologic sympathy and therapeutic harmony with the others.

INDICATIONS: Neurasthenic and asthenic conditions, menstrual disorders and climacteric disturbances, cold extremities and low blood pressure. In England a common treatment for convalescent *shell shock* and for *post influenza* recoveries.

A famous American physician has written us: "I prescribe *Hormotone* now with the same confidence that I do mercury, quinine or belladonna."

Hormotone "Without Post-Pituitary" in neurasthenia accompanied by high blood pressure.

SECRETOGEN

A stimulant of digestive secretions. Tablets of homostimulative desiccated extract of the duodenal mucosa, exciting production of duodenal secretin, thereby stimulating simultaneously the function of pancreas, liver and intestine. Indicated in pancreatic insufficiency, torpid liver with autotoxemia, intestinal stasis, and marasmus resultant from these disturbances.

Dr. Boardman Reed, well-known authority on diseases of the alimentary tract, author of standard text-book "Diseases of the Stomach and Intestine," says in *American Journal of Gastro-enterology*, "Secretogen has proved, in a number of patients recently seen by me, decidedly more effective than the usual combinations of HCl and pepsin, rapidly bringing the work of the stomach up to normal, and usually at the same time improving intestinal digestion and assimilation. It is right to say that Secretogen is apparently the most powerful excitant of gastro-intestinal secretion so far tried by me."

SECRETOGEN ELIXIR, carrying the extracts of both gastric and duodenal mucosa, designed especially for stomachic hypoacidity and lack of digestive secretions.

KOLA ASTIER

(GRANULATED)

**Antineurasthenic regularises the cardiac rhythm,
stimulates the Nervous system**

Medium Dose: Two teaspoonfuls a day.

ASTIER LABORATORIES, 45 RUE DE DOCTEUR BLANCHE, PARIS, FRANCE

For samples and literature address: Messrs. JOUBERT & JOUBERT, 552 Flinders St., Melbourne

Recurrent Fever Syphilis

GALYL

Framboesia Sleeping Sickness

GALYL is as effective as SALVARSAN or NEO-SALVARSAN on Spirochaetes and Trypanosomes, more rapid in action, and free from the neurotropic and congestive action of these preparations.

Practical work with GALYL in the shape of **60,000** INTRAVENOUS and INTRAMUSCULAR INJECTIONS administered in Military, Naval, and the principal General Hospitals throughout the United Kingdom, has demonstrated that this preparation is more rapid and less toxic in action than any compound of the "606" group, which accounts for the consistently excellent clinical results without any undesirable by-effects.

ROYAL COMMISSION ON VENEREAL DISEASES

Final Report of the Commissioners. SUBSTITUTES FOR SALVARSAN

"... another French substitute GALYL, a compound of arsenic and phosphorus, has recently come into prominence, and its use has been attended with considerable success."

"Favourable reports have also been obtained regarding the preparation GALYL. At the Male Lock Hospital 1000 injections of this substance have been administered, and it is reported that they have been attended with as good results as in the cases treated by Salvarsan and Neosalvarsan; in no instance were the injections followed by reactions indicative of arsenic poisoning."

Fig. 2.

THE IMPROVED INTRAMUSCULAR GALYL.

The GALYL in the form of a Sodium Salt in a weak solution of glucose. This is much easier to use and more rapidly absorbed than the oily emulsion. It is in every way identical with the intravenous—efficacy, dose, etc., only differing in administration.

"The results are excellent, both immediate in the clearing up of evident lesions and ultimate, as proved by the Wassermann test. Personally I have used this preparation in over 400 injections with the best results and without the slightest mishap or inconvenience to the patient."

"Yours faithfully, Dr. —."

THE TECHNIQUE IS SIMPLE.

Fig 2 shows the ampoule of Galyl being emptied into the syringe barrel—the needle is now fixed on the neck of the syringe and the plunger inserted into the barrel. The injection is then ready for administration.

For Intravenous Injections:—
(1) DILUTE.—GALYL is supplied in neutral glass ampoules containing the necessary dose of Sodium Carbonate, sterile distilled water only being used for the dissolution.

Doses:

0.20, 0.25, 0.30, 0.35, 0.40.

PRICE,

10/- PER TUBE.

FOR ALL STRENGTHS.

(2) CONCENTRATED.—A special outfit containing one dose GALYL, one ampoule sterilised solution, and one small filter is supplied.

Doses:

0.10, 0.15, 0.20, 0.25, 0.30, 0.35, 0.40.

PRICES ON APPLICATION.

(3) For Intramuscular Injections:

GALYL is supplied in GLUCOSE SOLUTION.

Doses:

0.10, 0.15, 0.20, 0.30, 0.40.

PRICES ON APPLICATION.

CUPRASE

For the Medical Treatment of
— CANCER —

Clinical facts carry greater weight than theoretical deductions. Doctors of repute in various countries give cases of great variety. In all of these pain has been eliminated, and in a good percentage cures are claimed, in no instance any undesirable effects. It should be remarked that all or nearly all the observations refer to inoperable cases in which the prognosis was unfavourable at an early date. It is needless to emphasise the practical importance of a preparation capable of yielding such results, even relative, in the worst stages of a disease which has always been regarded as absolutely resisting the action of all internal remedies. Nothing has been found which can compare with the effects produced by means of Cuprase.

Its easy application (intramuscular injections) places it within the reach of all practitioners. It is not toxic.

Cuprase is a colloidal Copper hydroxide obtained by the reduction of Salts of Copper in the presence of Albuminous Acid.

Disappearance of the Pain.
Return of Sleep.
Increase of the Appetite, Colour and Strength.

Warwickshire, July 1st, 1917.

Dear Sirs,—Will you please send me another box of Cuprase ampoules. The previous lot effected a most remarkable cure in an elderly lady suffering from cervical cancer—the cauliflower-like growth has disappeared with its offensive discharge. This case was given three months' life by a Specialist, being inoperable.

Yours faithfully,
(Signed)

G— B—, M.R.C.S., L.R.O.P.

ANTHONY HORDERNS' ————— SYDNEY

GLAXO helps Invalids to Regain Strength

The high percentage of proteid and fat—the extra cream and lactose (milk sugar) present in Glaxo—explains why it is of the greatest value in assisting invalids and convalescents to regain strength and increase weight.

To impart stimulus and strength to invalids and restore convalescents to usual health and vigour is the task easily accomplished by Glaxo. It rebuilds strength and weight, because it adequately nourishes the system. If one tablespoonful of Glaxo is added to each cup of beef tea, soups, etc., it will make them far more nourishing.

When all else is rejected by the stomach, Glaxo can be given with confidence. Unlike ordinary milk the nourishing caseinogen is broken up into light, flaky, digestible particles. Glaxo has a delicious flavour—patients welcome it. It is absolutely germ-free, more digestible than ordinary milk, and far richer in cream and milk sugar.

To half a cupful of Glaxo add a little hot water, mix into a paste, then pour in boiling water slowly, mixing all the time. The flavour is improved by pouring from cup to cup after mixing.

The Success of LACTOGEN

Is due primarily to the results—remarkable results—that invariably follow its use.

Lactogen contains the essential food elements in similar proportions to human milk, and in the same easily digested form. This applies particularly to the fat content. By a special process of manufacture the fat globules are reduced to an extremely fine state of division and the result is a perfect emulsion when the food is mixed with hot water.

There is no danger of indigestion with Lactogen, The Natural-Milk Food, for Infants and Invalids.

Serum Laboratories

Normal Horse Serum

For the information of the Medical Profession it is notified that **Normal Horse Serum** is now available.

NORMAL HORSE SERUM has been used locally with success in the treatment of chronic ulcers and to arrest hæmorrhage; its beneficial action has been attributed to the antitryptic substance contained in it. Orally it has been used in the treatment of gastric and duodenal ulcers with apparently good results.

NORMAL HORSE SERUM has been administered intravenously or subcutaneously in the treatment of hæmophilia and surgical hæmorrhage, and the clinical reports of these cases have been encouraging.

NORMAL HORSE SERUM is also extensively used in dental practice.

NORMAL HORSE SERUM is supplied in quantities of 1 c.c., 5 c.c., 10 c.c., 30 c.c., 50 c.c., and 100 c.c. The 1 c.c. and 5 c.c. quantities are available only in sets of four. Supplies can be obtained from the Director, Commonwealth Serum Laboratories, Royal Park, Melbourne, or upon application at the office of the Chief Quarantine Officer in each State. The addresses of the Chief Quarantine Officers are given hereunder:—

Brand.
Adopted 1917.

S EABURY'S "Gold Cross" brand Absorbent Cotton ; a fine selected fibre cotton, purified, thrice carded, and rendered absorbent by the special processes of the Seabury Pharmacal Laboratories, is issued as a dependable dressing for modern surgical requirements. **¶** It differs from the ordinary varieties of cotton wool in that it is composed exclusively of long-fibre cotton, as distinct from mixtures of short-fibre and cotton-waste. **¶** Long-fibre, essential for surgical purposes, ensures thorough *drainage* of the wound surface. **¶** Specify "Seabury's."

Supplied in cartons of 1, 2, 3, 4, 8 and 16 ounces net weight of cotton, exclusive of packing.

The Balance of Power in Pneumonia

The physician throws the balance of power against pneumonia when he employs Antiphlogistine as the local adjuvant in treating this disease. He turns the scales in the patient's favour and increases his chances for recovery.

Antiphlogistine

TRADE MARK.

gives to nature that assistance which is so often sufficient to carry the patient safely and comfortably over the crisis.

Antiphlogistine induces sleep and offers the patient exactly what he absolutely requires—EASE AND REST.

The Denver Chemical Mfg. Co. - - Sydney

The Mitchell Six

IN AMERICA THE MITCHELL IS RECOGNISED
AS THE LEADER IN ITS CLASS.

HERE the "Mitchell" has proved its superiority over all other cars for RELIABILITY, POWER, ECONOMY IN UPKEEP, and for the same money you get 31 extra features other cars omit, a few of which are SIMMS MAGNETO (late Simms Bosch), POWER TYRE PUMP, REVERSIBLE HEADLIGHTS, PATENT UNBREAKABLE SPRINGS, ENGINE PRIMER, and many other features not given with other cars.

POWER AND ECONOMY.

No other car at any price can claim to do what the "Mitchell" has done, viz., The small Model "Mitchell" Six went from Sydney to Jenolan Caves and back, sealed in high gear, and averaged 23½ miles per gallon on benzine—this was done under the observation of the Sydney Press.

TEST THE CAR YOURSELF.

Take a run in a "Mitchell"; you will soon understand the reason of its popularity, you will marvel at its wonderful power, its riding qualities, its silence and its perfection in every respect, then stand off and look at its flowing streamline appearance, its solidness, its distinctiveness that makes even the newsboys say

A

Mitchell

Bi-Palatinoid Iron

IN THE TREATMENT OF ANÆMIA.

The Bi-Palatinoid is a small soluble cachet of glycerin jujube, divided into two chambers, so that in the case of Bland's Pill the ferrous sulphate and carbonate of soda are kept apart, and no interaction is possible until it reaches the stomach.

Thus a NASCENT FERROUS CARBONATE is produced which with the albumoses present forms a true Colloid of the metal, and explains the pronounced and rapid improvement in all cases marked by a deficiency of iron in the blood.

No other form of Iron in the treatment of Anæmia affords such excellent clinical results in so short a time, at so small a cost as Bi-Palatinoids

Interstate Excursions — Cheap Excursions run Monthly to and from Melbourne and Sydney. See posters, or enquire at local Station.

Melbourne-Adelaide excursions are at present suspended.

Ring up the Government Tourist Officer, Telephones 2898 and 2899 Central, Melbourne.

GEO. H. SUTTON,
Secretary for Railways.

A Capital Cough Syrup

SYRUP COCILLANA CO.

A Cough Syrup that will satisfy the most exacting Prescriber.

This product appeals with particular force to prescribing physicians. It meets the demand for a preparation that is not suggestive to the layman. It does not lend itself to self-medication.

SYRUP COCILLANA CO.

is a capital product from an efficiency standpoint. It is notable for its physical appearance and its attractive colour, and its taste also is unusual, being remarkably

pleasing. It is free from the constipating tendencies of many otherwise good cough syrups.

It is an agreeable expectorant, which also soothes bronchial irritation. Of special value in the first and second stages of acute inflammatory affections of the respiratory tract.

We should be pleased to forward you a sample on application.

PARKE, DAVIS & CO.,

125 YORK STREET
